PROFILE

A third-year student from the School of Information Technology (SIT), King Mongkut's University of Technology Thonburi, with a strong passion for IT Support, especially in technical troubleshooting, system maintenance, and end-user services. I have skills in teamwork, effective communication, and problem-solving. I am eager to learn, grow, and apply my knowledge through real-world experience, with the goal of becoming a skilled and reliable IT professional.

PROJECT & WORK EXPERIENCE

IT3K#19 - Wireless Network Setup

9TH MARCH 2025

<https://www.facebook.com/reel/1190432596037160> (2:10)

- Visit the site to check the area along with the floor plan, in order to see the space size and estimate crowding for proper Access Point placement.
- Planned network diagrams, placed Access Points, and configured wireless settings for both Virtual Controller and standalone APs.
- Connected SFP switches to university servers, configured network via LDAP/RADIUS, and set up WPA2 Personal on Access Points for secure access by staff and external users.

ITB-MSHOP

INPROGRESS

<https://github.com/Pratchaya-jamp/ITB-MSHOP-SY4>

- Working in a SCRUM team to develop a ITB-MSHOP task management board Web Application.
- Setting Up VM Server for Integrated Frontend & Backend to Deployment with Docker & Nginx Reverse Proxy
- Frontend created by using Vue.js with reusable components.
- Appoint and attend daily meetings with a consistent schedule to discuss the progress.

Vue NoteApp

2nd-Year Semester 1

<https://github.com/Pratchaya-jamp/Vue-NoteApp>

- Do delete function in project that can delete one-by-one or multiple delete.
- Do search function for search any note by add some keyword and also auto filtering item without click search button.

Meme's Blood: война(Voyna) Of Meme

2nd-Year Semester 2

<https://github.com/Pratchaya-jamp/Meme-Blood>

- Do an Inventory for collected cards and decks by Users-ID.
- Create Card Pictures and Add In-game/BGM sound function.
- Do a pop-up function that show about card's detail.
